

## ■ About Summer English Courses

Summer English Courses at Steve's English School are for students to improve their English by studying intensively during the summer vacation.

We plan each course to be the most effective to each student who is participating in the course by evaluating the student's ability carefully and limiting the number of students in each class **up to 8 students**. Books are made or chosen after we know who are going to be in each class so that each student will be engaged in the lessons.
